FOREWARD

Volume III of the Marriages of Tuscarawas County, Ohio, Contains those marriages recorded in Book 6 and Book 7 of the records of the Probate Court and are for the years between 1864 and 1880.

These original records are now faded, torn and very difficult to read. Please remember that every every effort was made to copy this information exactly as it was recorded. It is the researcher's responsibility to verify the original record when doing any research.

The following suggestions are made to facilitate research in this book:

PROPER NAMES - Many descrepancies will be noticed in the proper names as they appear on early records compared to present-day spellings. Original spellings have been retained. It would be well to search under all phonetic spellings of the name if it is not found under the usual spelling. Example: Casier may be found under Kaser. The original German spelling of Schumacher may be spelled as Shoemaker.

MARRIAGE DATES - Occasionally the year was omitted from the marriage record, but if the day and month were listed, we have written the year which appears on all the other marriages on that page.

MARRIAGE OFFICIALS - To conserve space we have given each marriage official an identifying code number. These officials and code numbers are found at the beginning of the book. Example: If the number H 53 appears in the column under official (Off.), you will check page 7 and find that number H 53 is P. Stans Hooper, a Minister at Emmanuel Lutheran Church at New Philadelphia. All titles found for officials are included in the official's index. At the beginning of page 3 are abbreviations with their meanings. Example: M.G. means Minister of the Gospel. If no title is given following the officials name, this means there was none in the records. When * appears in the official column, no date of marriage or official's signature appears in the record. The date of application is then given.

PAGE AND RETURN NUMBER - This will facilitate identification if a certified copy is ordered from the Probate Court or you want to check the original record.

Example: 517 12281 means page 517 and marriage return number 12281.

In submitting this book to the public, the Tuscarawas County Genealogical Society hopes that these records will be received as an honest and conscientious effort to present a permanent record of early marriages of this county. Errors will necessarily arise in the production of a work of this magnitude. This is especially true because of the poor quality of the original copy.

Volume I of the Marriages of Tuscarawas County, Ohio from Books 1-2-3, for the years 1808-1844, was published in 1979.

Volume II of the Marriages of Tuscarawas County, Ohio from Book 4 and Book 5, for the years 1845-1863, was published in 1981.
